ERIBA
A Product of the HYMER Group

Some vehicles illustrated are fitted with optional equipment, which is subject to surcharge. Details relating to delivery, appearance, performance, measurements and weights are correct at the time of going to press, based on the British Standards for sale and registration in United Kingdom. Some vehicles depicted may not be registrable in all European countries. Your ERIBA dealer will gladly give you information about standard models in your own country and the registration laws. Variations due to manufacturing tolerances are possible and allowed. ERIBA reserves the right to make changes in design or technical improvements without prior notice.

ERIBA-TOURING 2005

ERIBA
A Product of the HYMER Group

ERIBA-TOURING

The extraordinary attraction of this legendary range is based upon the unusual. Concept: stability, compact, low profile, perfectly aerodynamic and superb towing characteristics. The unique construction principle of the tubular steel frame structure that makes up the skeleton of the ERIBA Touring caravans has proved itself over the decades.

The elevating roof design, lowered for touring, ensures the caravans low profile and unrivalled road holding qualities.

Spare wheel cover shown throughout this catalogue is an optional extra.

Eriba – Touring presents you the wonder of space utilization in providing its occupants with elegant comfort in every detail.

ERIBA-TOURING

A generous habitation in a petit space: furniture and décor accentuate the comfort and functionality of this unique design.

Are you persuaded ?

The Puck L 230GT featured below shows its practical L shaped kitchen arrangement together with the comfortable dinette that is spacious and very functional.

Fabric shown is for illustration purposes only – not for UK models, see page 8 for upholstery options.

ERIBA-TOURING

One construction standard prevails in all the design and features, the love of detail in providing a functional and comfortable environment for which the most discerning owner will appreciate.

Grand style for a table that is not only elegant, but very practical in use.

For those moments when the very useable washroom provides the convenience of your own home.

Small in execution yet generous in use, the vanity area offers practicality in its spacious layout.

An upholstery of your choice:

Stockholm

Avignon

Whatever model you choose in the Eriba - Touring range, all are individual and practical, offering you choice in the model that suits you best, from the Puck 120 GT through to the Troll 555 GT.

Nothing is superfluous in the execution of its practical design which offers functional use with premium quality.

Shown below is the Troll 552 GT offering you the comfort of a fixed bed together with a dinette area giving you the best of both world's.

Fabric shown is for illustration purposes only - not for UK models, see above.

ERIBA-TOURING

The Eriba - Touring is no amateur, but an individual with experience expressed in the technology throughout which manifests itself in the attention to all the details that have been addressed in its design.

The combination of good design and quality bringing together the best in creating the ambiance for your enjoyment.

Indeed ... Not Like Any Other!

Forty-five years ago the first ERIBA caravan was conceived, built around a revolutionary concept and perfected by an aeronautics engineer. The tubular steel frame structure (as shown opposite) which makes up the skeleton of an ERIBA Touring caravan, has proved itself over the decades. It is yet to be superseded as one of the best solutions ever designed to give rigidity to the whole unit.

This unique design element allows for an aerodynamic shape but also an optimum weight ratio. This gives every ERIBA Touring caravan incomparable road holding properties.

The tubular steel frame structure is insulated to ensure no cold spots to attract condensation on the inner panel, and is used to mount all the furniture inside the caravan, as well as an anchor point for any external accessories which are to be fixed to the caravan. This ensures a very long life. There are enough veteran ERIBA's still on the road today to prove it!

Shown to the right is an exterior view of the Puck 120 GT, featuring the tow bar fairing, front panel stone guard and alloy wheels present on all Touring GT models.

The exterior of the GT models combines beautifully with the interiors in which the smart, smooth, curved furniture is presented in pear wood décor.

Unrivalled aerodynamics combined with low weight and a low centre of gravity give the ERIBA remarkable road holding and manoeuvrability.

The integral gas bottle locker is a feature of all the Touring models.

1200 kg M. T. P. L. M - Gross Laden Weight

4 Berths

* The Mass in Running Order (MRO) indicated is as per EN 1646 - 2 based on a standard version model and are given for illustration purposes only.
Actual specification varies depending on the model chosen.
Full details are available from your Eriba dealer relating to your chosen model.

MRO* Mass in running order in kg includes the weight of a gas cylinder and a fresh water tank both to 90 % of their capacity (This has been equated to 30 kg).
